Request for Certificate of Correction  
April 29, 2008

The PTO entry marked with the arrow above is evidence the PTO received the requisite fee and erroneously coded the \$130 Terminal Disclaimer fee filed December 18, 2006 as code "1615" ("Claims - extra total (over 20) " see [www.uspto.gov](http://www.uspto.gov) April 28, 2008) as opposed to the correct code 1814 "Statutory disclaimer ", as indicated on the undersigned's Transmittal.

The incorrect coding by the Patent Office is believed to have led to the erroneous entry of the following paper in the PTO IFW on March 26, 2007, which indicates that a Terminal Disclaimer (i.e., "TD") is still required.

U.S. Patent and Trademark Office

Accordingly, while the Examiner indicated in the Notice of Allowance dated April 2, 2007 that the Terminal Disclaimer was entered, as evidenced by the following reproduction of page 2 of the Notice of Allowance, the Patent Office clerical error in not properly accounting for the Terminal Disclaimer fee led to an error in the printed patent:

1. The following is an examiner's statement of reasons for allowance: Applicants have submitted a Terminal Disclaimer to obviate the double patenting rejection over copending application 10/542,512. The closest prior art is Witten et al (Cancer 1962), which on pages 1044 and 1046 teach structurally similar compounds as claimed in herein. However, the reference compounds differ from the instant claimed compounds in that the reference compounds are not fatty compounds and does not have multiple carboxylic group. There is no motivation to arrive at the claimed compounds using the prior art, and thus instant claims are patentable.

While the following corrective paper has been entered in the Patent Office IFW on September 11, 2007, the Patent Office is also requested to correct the record by issuing the attached Certificate of Correction:
